Summary

Enthusiastic and driven Product Designer with a passion for creating world-class digital products. I thrive in demanding environments and consistently strive for excellence, always seeking to learn and improve.

Experience

Kevel Remote
Product Designer 02/2023 - Present

Kevel is a B2B SaaS platform that empowers businesses to build, launch, and manage custom ad platforms tailored to their needs. Customers include Yelp, PayPal, Klarna, Ticketmaster, WeTransfer, Strava, and many more. I lead product design at Kevel.

- Designed UIs within frontend web frameworks, exploiting associated templates and tools to shorten development times (Ant Design and MUI)
- Collaborated with the product team to create to-be scenarios, user flows, wireframes, mockups, and interactive prototypes in Figma
- Conducted user interviews with more than 15 users to better understand user behaviors and usability patterns of the ad platform
- Based on the research, created user personas, and customer journey maps
- Devised site maps and mockups for designs based on proven methodologies and end-user feedback
- Led the website redesign and Webflow Development of kevel.com (redesigned 20+ pages) which led to an increase in loading speed by 28%

Bots & People Remote
Webflow Designer - Part-Time 08/2023 - 03/2024

Bots & People is a digital upskilling provider with a mission to banish repetitive tasks and create meaningful work for everyone.

- Developed and maintained a comprehensive library of design assets for easy access and reuse
- Enhanced functionality and appearance of website and repaired functionality issues

ITlogia Remote
UX Design Mentor - Part Time 02/2023 - 09/2023

ITlogia is an online school for promising and in-demand IT jobs: website development and web design.

- Served as a mentor and advisor for 26 students and provided professional advice and academic support

Finoa Porto, Portugal
Junior UX Designer 05/2022 - 11/2022

Finoa GmbH is a regulated custodian for crypto assets, servicing professional investors with custody and staking.

- Led the design of the Finoa Onboarding Web Application. Created the first version of the application which was released.
- Created sketches, wireframes, mockups, and design documentation with detailed descriptions of interactions and workflows for desktop and mobile
- Conducted user testing with 10 users to better understand user behaviors and usability patterns of the onboarding platform
- Used critical thinking to break down problems, evaluate solutions, and make decisions

B2Broker Moscow, Russia
Web Designer 05/2021 - 05/2022

B2Broker is a liquidity and technology provider of solutions for the crypto and foreign exchange (FX) industry.

- Created and maintained UI standards for 5+ websites, which included over 60 pages
- Led the creation of the first Design system with style guides and patterns for websites that reduced technical debt for both designers and engineers and increased consistency and speed of development and QA
- Delivered a variety of marketing material - including brand identity, websites & landing pages, mobile apps, emails, social media posts, banner ads
